ASVAB iCAT Test *June 27*

This is the computerized version of the ASVAB test and takes approximately 1.5 hours to complete. The test measures student's strengths, weaknesses, and potential for future success. A key element of the test results is the ability to explore career options that align with the individual's abilities. The computerized version automatically adjusts the difficulty of the questions based on the individual test taker's responses. The CEP iCAT also offers immediate results, so students can see which careers, both civilian and military, are recommended for them right after they finish the test. **Note:** *Those taking the test are not required to speak with military recruiters or enlist in the Armed Forces.*

How to Apply for Osceola School District Jobs *June 29*

This information session will describe the entire application process including the online job search feature, online application system, documents required, the different types of jobs that are available, and much more. Register in advance.
